

In our 20 years of pioneering the U.S. Hemp movement, Hempy's has established a worldwide reputation for its quality Hemp apparel and accessories.

One of our core values is long-term sustainability in all aspects of what we do. Every decision we make is based on the idea that in order to be truly sustainable, all stakeholders' interests must be met, planet earth being one of the key stakeholders in this equation. We are a company that believes that all things are connected and therefore, every detail matters. We wrestle daily with the decisions of how to deliver the very best quality and value to our customers while honouring the crafters who create our products and the planet that sustains us all.

Every Day, For Everyone.

At Hempy's we are committed to a planet where all inhabitants thrive. We believe that hemp can play a major role in creating a sustainable world. Although Industrial Hemp is one of the oldest cultivated crops, we at Hempy's believe that in many ways we are just getting started with the potential of this amazing plant. As we combine the power of Hemp with today's technology and scientific knowledge, hold on to your Hempy's hat, because Hemp can help save the world!
